

Ways the Scansnap is PERFECT FOR BUSINESS

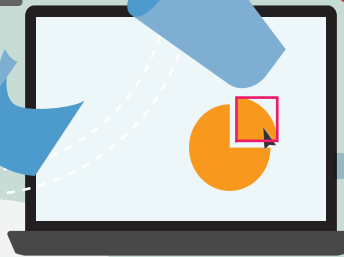

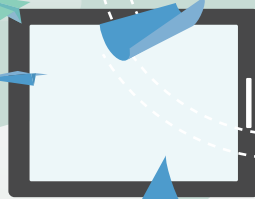

Compact Size

Office and desk space can be expensive and therefore precious. Every ScanSnap is designed to occupy small footprint but still delivering high quality scan images.

ScanSnap Sync

Work seamlessly across devices and locations, by synchronizing your documents across your cloud, PC and mobile devices.

CardMinder

This bundled application in all ScanSnap scanners, scans business cards and converts them into address database. CardMinder allows quick scanning, image recognition, and database management.

WiFi Supported

ScanSnap iX-Series is equipped with built-in Wi-Fi so Businessmen who are always on the move can make the best out of their time and journey.

Scan to Office applications and Cloud

Digitally edit, copy or save hard-copy documents without having to re-type! Scan to common applications like excel, word or powerpoint. Or save directly into your business cloud account like Salesforce, SugarSync or Evernote.
