

# ▶▶ Choosing The Right ScanSnap For You

## Purpose of ScanSnap

### S1300i

S1300i is the smallest multi-page double-sided ScanSnap scanner, processing 12 pages per minute directly to PDF, searchable PDF, JPEG, or to office applications like Word or Excel®.

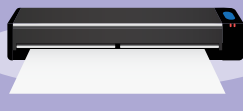

### S1100i

This featherweight champion packs quite a punch. The ScanSnap S1100i is our most mobile ScanSnap ever (350g). Manage your business cards with ScanSnap Home.

### iX100

The world's fastest battery-powered ScanSnap processes a single page in 5.2 seconds. The iX100 is equipped with built-in Wi-Fi for scanning on the go.

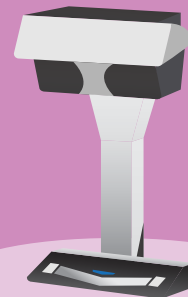

### iX1500

With Wi-Fi, touchscreen and advanced software, the iX1500 transforms all the paper surrounding you with valuable information and adds more productivity to your lifestyle.

### SV600

Scan anything from business cards to A3 documents, or even 3D objects up to 30mm with SV600. "VI technology" lets you scan without touching the document so you can preserve these delicate originals.
